

Rethinking Enforcement.

The Yunex Traffic Global Partner Programme

Unrivalled experience and expertise

Yunex Traffic is a global leader in the development and delivery of enforcement and traffic management solutions, working closely with delivery partners, highways operators and city authorities across the globe. Our solutions improve the flow of people and goods, making highways and cities more efficient, safer & healthier for all.

With unrivalled experience and expertise, we have delivered a wealth of enforcement projects of all shape, scope and complexity - worldwide.

From city-wide low emission and clean air zones to average speed road safety and tolling solutions; from school streets to local, targeted moving traffic offence enforcement projects.

Our solutions provide the best detection and highest accuracy and availability rates, enabling authorities and their enforcing teams to optimise productivity and achieve the highest return for their investment in technology and staff.

The Global Partner Programme.

Yunex Traffic is committed to advancing the future of intelligent traffic enforcement on a global scale and is seeking partners to help introduce and establish our proven enforcement technology into new international territories.

Our new Global Partner Programme represents a new approach to collaboration and has been created to empower our route-to-market partners including distributors, solution providers, systems integrators, outsourcers, technology alliances and service providers, and drive shared success.

Partners will have the ability to sell, deliver and support the Yunex Traffic Enforcement solutions in their region.

Our comprehensive 24/7 online partner portal will support you at every stage of our collaboration and is designed specifically to help onboard you as a partner and enable you to deliver mutual growth.

With a thriving partner program, we grow faster, together.

The main pillars of our Global partner programme:

- Onboarding and education
- Training and certification
- Marketing and sales support
- Technical training
- Incentives, tiering, and rewards programs
- Deal registration / margin protection
- Joint business planning
- Performance tracking and reporting

A dedicated enforcement partner portal provides our partners with a single, unified platform with key resources, tailored to improve your partner experience and help support your customer engagement.

Features and benefits of our partner portal:

- Easy access sales, marketing & technical information
- Localized user experience supporting over 10 languages
- AI concierge & guide
- Enablement/training
- Access to deal-registration (opportunity & pricing protection)

Proven technology

Fast and easy to install, our fully scalable, hosted and future-proof solutions provide secure, remote and unattended operation for enforcement applications and deliver exceptional value for money.

In the UK, we have deployed:

- Over 2,400 ANPR cameras for civil enforcement applications.
- More than 5,000 ANPR cameras for low emission and clean air zones.

Our software enables operators to review contraventions in half the time of our nearest competitor.

At any given hardware price point, our software produces the UK's highest rate of enforceable contraventions.

Your trusted enforcement technology partner

We work with various types of partners (including solution integrators, urban & interurban contractors, enforcement agencies, advisory firms, regional distributors & resellers) to deliver robust, reliable and integrated, end-to-end enforcement solutions that address specific regional requirements. Our solutions use market leading and suitably type approved & certified ANPR and AI technology to identify potential contraventions, capture evidential data and provide the accurate and effective enforcement of:

- Bus lanes, gates & stops
- Yellow box junctions & Don't Block the Box
- School streets & keep clear zones
- Clean air zones
- Pedestrian zones
- Speed restrictions
- Tolling
- Restricted access zones
- Width & weight restrictions
- Banned turns
- Cycle lanes
- No-entry & one-way systems
- Temporary speed restrictions at roadworks
- Road user charging

Yunex Traffic

Yunex Traffic is a separately managed company of the Mundys Group. We are a global leader in the field of intelligent traffic management and enforcement solutions.

Yunex Traffic has over 3,500 employees from 62 nations and is active in over 40 countries worldwide.
